
The seal a teammate did not have to play

six players, S3 board 10, move 57 of 59

B has one cell left it can move to, R8C5.

D plays right, into exactly that cell.

D could have played up or left instead:
legal, and leaving every player a move.

B now has no legal move at all. It goes on proposing moves, and 2 moves later the episode is aborted.

30 of the 32 aborts are this picture. The enclosure is a choice the team made, not a board it was dealt.

dashed cell: the one cell B can still move to.
ringed discs (C, F) have declared done and will not move again — F is the far wall of B's pocket.
